

## Kingsfield First School

### Pupil Premium Core Offer – 2018/19

All children in our school receive Quality First Teaching which demonstrates assessment for learning and a stimulating curriculum embedded at the heart of all teaching and learning. Disadvantaged children are invited to attend breakfast clubs to support attendance, financial help with educational trips and enrichment clubs, such as violins (KS2). All children are tracked as a group and individually to ensure at least good progress. Progress and attainment is discussed at staff training, pupil progress, performance management, senior leadership data analysis and Governor meetings. Talented children will be invited to aspirational visits and workshops eg, with local authors, story tellers, practical sessions with local artists or a cadets course. In addition, our school also maximises the links between school within the Biddulph Partnership Trust to promote talents and raise aspirations of these children, particularly in Key Stage 2. To also ensure pupil involvement in the wider extended curriculum in order to raise aspirations all disadvantaged pupils every half term will experience an enrichment afternoon to include activities such as baking, a library visit, art, computers, a Green Tree House activity session, gardening, outdoor learning, links with local business etc. Finally disadvantaged children have access to the Visyon counselling service and support their social and emotional well-being.
