

Split Diagraph Story

A long time ago, years ago, these letters (ae) used to be best friends! The bestest of bestest friends! They went swimming together, the park together etc. When they started school, the trouble started!

Because they were the best of friends, they would always sit next to each other but they used to chat all the time!!

One day the teacher had enough! She split them up! They were not allowed to sit next to each other anymore, now a sensible letter has to sit in between them!

BUT do you know what? They are sneaky, so sneaky! They hold hands behind the sensible letters back so that they can still make the (ae) sound.

Now you can remember if you see these 2 naughty letters they will make the (ae) sound. If you see a word with the a-e sound you need to look surprised/shocked!

Example

cake

c ae k

open your eyes wide when you say the ae sound
