7.2 Contractors working on the school site					
Contractors on-site whilst school is in operation may pose a risk to social distancing and infection control	H	<ul style="list-style-type: none"> Ongoing works and scheduled inspections for schools have been designated as essential work by the government and so are set to continue. An assessment has been carried out to see if any additional control measures are required to keep staff, pupils and contractors safe. Assurances have been sought from the contractors that all staff attending the setting will be in good health (symptom-free) and that contractors have procedures in place to ensure effective social distancing is maintained at all times. Temperature checks are carried out on arrival and before entering the school building and all contact details collected and retained. Alternative arrangements have been considered such as using a different entrance for contractors and organising classes so that contractors and staff/pupils are kept apart. Social distancing is being maintained throughout any such works and where this is not possible arrangements are reviewed. In addition to arrangements for COVID-19, normal contractor procedures are being applied and have been updated in light of COVID-19 (including contractor risk assessments and method statements, and contractor induction). Lack of Director and LAB oversight during the COVID-19 crisis leads to the school failing to meet statutory requirements.	H	<ul style="list-style-type: none"> The LAB and Director Board continues to meet regularly via online platforms. All agendas are structured to ensure all statutory requirements are discussed and school leaders are held to account for their implementation. The Head's report to LAB members includes content and updates on how the school is continuing to meet its statutory obligations in addition to covering the school's response to COVID-19. Regular dialogue with the Chair of LABs and those governors with designated responsibilities is in place. (Link LAB and Director Champions) Minutes of LAB meetings are reviewed to ensure that they accurately record LAB's oversight and holding leaders to account for areas of statutory responsibility.
