Topic

Little Red Riding Hood took a picnic basket full of delicious treats to her Grandma. Make a picnic to eat with someone at home. It could be a brother or sister or a grown up. If it's sunny you can eat it on a blanket outside or if not have an indoor picnic.

Little Red Riding Hood had a long walk through the forest to get to Grandma's house. Draw a map of the forest with a path leading all the way to Grandma's house. Think about what you might see in the forest - trees, other houses, maybe even a small pond.

Time for some Art! Create a picture of the forest. You can include Grandma's house or any of the characters if you want to. There are many ways you can do this. You could draw and colour, paint, collage - the choice is yours! I can't wait to see your results.

All About... The Fox

Foxes are a member of the dog family, and are found throughout the United Kingdom. Though they are like dogs, they are only a little bit bigger than most cats. The male fox is called a dog and a female fox is called a vixen.

Amazing Facts

Foxes have brilliant hearing. They can hear something as quiet as a watch ticking, from 30 metres away! This would be like hearing someone whisper from across the playground. As well as having great hearing, they can run really fast. They can run up to 30 miles per hour, which is really fast.

Did you know?

They are mammals, which means they have warm blood and fur. Even though they are nocturnal (move around and eat at night), they can be seen during the day. They like to sunbathe.

What do foxes eat?

Foxes are carnivores, which means they eat meat, but they will eat berries off bushes and even look in rubbish bins for leftovers. Baby foxes, called kits, drink milk from their mothers before they start eating more usual foods like worms! Foxes will also hide food to come back and eat later.

Where do they live?

Foxes are found in all sorts of places, or habitats. They live with other foxes in dens in the countryside but will also make their homes in towns and cities. You might spot one if you are out on a dark night.

Questions

1. Foxes are only a little bit bigger than what animal?

2. What is a female fox called?

3. How fast can foxes run?

4. Name two places you might find a fox.

5. Name two things that a fox might eat.

6. From how far away can a fox hear a ticking watch?

7. What does nocturnal mean?

8. How do we know foxes are mammals?
