# Summer Skills Filler Resource Pack

One of the many benefits of your child's EducationCity account, is that it is available to use 24 hours a day, 365 days a year! So, why not encourage your child to access EducationCity throughout the summer to fill their skills?

## What Will I Find on My Child's EducationCity Page?

Henery

### Name and Avatar

Each child will have a personalised page showing their name and the option of different avatars to express how they are feeling.

### Classwork and Homework Tiles

If your child's teacher has set work for them, this is where they will find it.

### Scores and Revision Tiles

For any activities or assessments that your child completes, the Scores area will show you what they have achieved. The Revision tile will provide Revision Journals for your child to help them build upon their learning after an assessment.

### Subjects tile and Search Content

For any additional learning, games, activities or videos, you will find these in the Subjects and Search Content areas.

### Online Safety Tile

You will also find an online safety area where your child can rehearse their understanding of staying safe online through fun games and activity sheets.

# What can I do with my child?

## Games

Don't feel guilty about setting your child on to an EducationCity game and then getting on with what you need to do! All of our games are educational, and your children can even compete against classmates online through the PlayLive game!

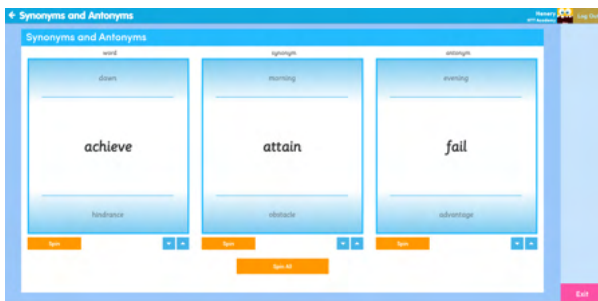

## Topic Tools

Although these are designed for teachers to use in classes, there's nothing to stop you from using them at home. There are some great ones to build on and even test out your child's learning!

### CVCC Words [Content ID: 42742]

Practice segmenting and blending skills whilst looking at recognising real and nonsense words- a key skill for Phonics!

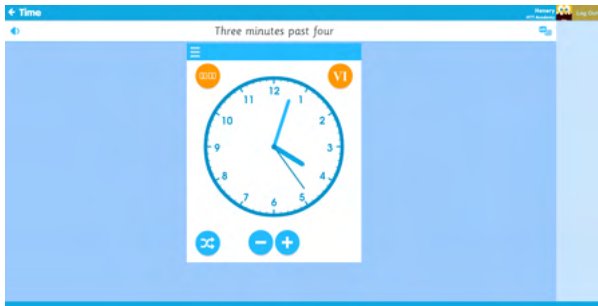

### Synonyms and Antonyms [Content ID: 42747]

For children in the upper end of the school, being able to use a thesaurus and recall synonyms and antonyms for a word is key when looking at advancing their writing. This tool supports those areas and is a great help for creative writing.

# What can I do with my child?

## Topic Tools

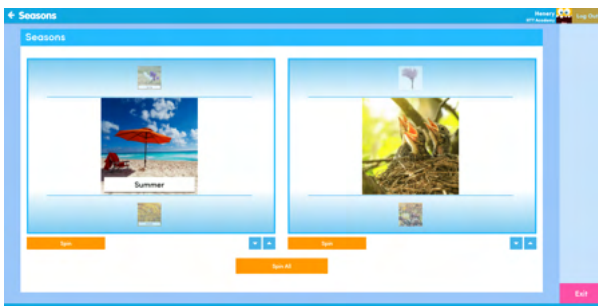

### Time [Content ID: 41768]

Telling the time is always going to be a foundational skill, so use this tool to help with learning and if your children already can, change the settings to a two clock view and look at calculating time difference.

### Multiplication Tool [Content ID: 42773]

Whether looking at mental or formal written methods, this tool is an excellent way of practising times tables at home.

### Seasons [Content ID: 42755]

If your child is in EYFS, then this is a great one! Explore different events that are linked with the seasons. You may even be able to see some from your window!

# What can I do with my child?

## Projects and Investigations

These are great to keep your children occupied and a fantastic way of showing their teachers independent learning. Have a look at the EducationCity subject area to find out what units your child or children are learning and set them off! Some fun suggestions are:

### Odds and Evens, Doubles and Halves

Grab a bunch of socks and ask your child to count how many there are. Maybe make a note on some paper to practise writing numbers. Then ask them to pair the socks together. You can then count how many pairs for halves and doubles there are and see any leftover socks. This will tell you whether the original number was odd or even! The 'Odds and Evens' Games will help with practising numbers and dividing.

### Create a Character

Why not encourage your child to create a character of their choice? This could link with a favourite game, TV show or be a creation of their imagination. You can work on describing that character, from identifying colours to writing a full description. Children can then place their character into a setting, story, comic book or game of their creation.

### The Best Thing about Science Is Enquiry!

Asking questions and working out answers for yourself. This can be as simple as asking, 'why do we wear woolly things in winter?' 'What minibeasts live in our garden?' 'What happens to shadows throughout the day?' You'll find some great investigation starters in our ThinkIts.

# About EducationCity

EducationCity produces fun, educational materials to engage students in learning and empower teachers to tailor their teaching. **Take a look at how EducationCity can support you in the classroom:**

## Target Lesson Objectives Easily

Find relevant content that links to your curriculum by using our Curriculum Map or Search tool.

Comprehensive and clearly organised by strand, content is so easy to access!

## Plan in Advance

When planning your lessons, choose your Activities in advance and put them into a MyCity so they're easy for students to access. Choose a meaningful name for each MyCity and you'll be able to update and retrieve them year after year!

## Differentiated Teaching

Monitor progress with SuccessTracker and you'll be able to identify the strengths and areas of development for each of your students and so choose relevant activities to help them progress.

## Flexible Learning

EducationCity is accessible via desktops, laptops, tablets and whiteboards, so can support you whatever equipment is available in your classroom.

## Additional Resources

Access our ready-made Lesson Plans and topical content to support teaching and learning in the classroom.

There's more to EducationCity than Activities alone!

## Assessment

Check students' learning with formative, summative and unit assessments. Curriculum-correlated, pre-prepared and easy to set, they give instant feedback to inform your next steps.

**"Teachers have been delighted with the content of this package and most impressed with how easy it is to find appropriate learning and teaching resources and then to use them in a variety of ways."**

**Mark Sanderson,**

Senior ICT Consultant, Herefordshire Learning and Achievement Service
