### Netflix

Netflix is a subscription -based streaming service that allows users to watch TV shows and movies on any internet-enabled device that supports the software, such as smart TVs, phones and tablets.

**Due to Covid there has been a huge increase in children consuming on-demand content as many families have relaxed their screen time rules.**

Netflix's diverse range of programming caters for all age groups - so it is important for parents to recognise the potential risks of children using the service and the measures to help their child enjoy a safe streaming experience. Follow the link below or see the document emailed with this newsletter for a guide that shares tips on a number of potential risks such as screen addiction, inappropriate content and hacking attempts.
